## MUNICIPAL DISASTER RISK REDUCTION MANAGEMENT

---

### MUNICIPAL DISASTER RISK REDUCTION MANAGEMENT COUNCIL (OPLAN KALIGTASAN 2011-2012)

Reference: RA. No. 10121 and  
Map of San Simon (not draw to scale)  
Hazard Map

#### **I. SITUATION**

##### **A. General**

The uncertainty of future calamity at the onset of rainy season should be anticipated with particular focus on known disaster/calamity prone areas to ensure a maximum safety and lesser effect on the threatened Barangay of the Municipality.

Man made disaster preparedness plan and programs are better than nothing but not knowing the manner how it will be anticipated and executed is a vulnerability to a worst scenario.

##### **B. Assumptions**

1. Typhoon and heavy rains will cause and prolonged water flooding at affected areas.
2. Continuous rains will trigger the Pampanga River to overflow and flash floods will threaten Barangays along Pampanga river bank.
3. Hasty rescue and evacuation operation will be conducted with difficulties due to the very limited resources and hesitant of vast majority to force evacuation.
4. Looting incident and flood shortage will be experienced.

#### **II. PURPOSE AND MISSION**

1. To establish standard operating procedure (SOP) in the orderly conduct and evacuation operations of the affected populations.
2. Conduct search, rescue, relief, and recovery evacuation operations.
3. To prevent loss of life, prevent needless sufferings and to protect properties and minimize damages during disaster and/or emergencies.

### **III. EXECUTION**

This plan covers all contingencies relative to flood disaster especially in the field of rescue and evacuation of affected population.

The Municipal Disaster Risk Reduction Management Council shall implement the plan in coordination with the Provincial Disaster Risk Reduction Management Council and local community including the private sector.

As chairman of the MDRRMC, the Municipal Mayor, is the key person in the overall success of this endeavor.

### **IV. DUTIES AND RESPONSIBILITIES**

#### **• CHAIRMAN**

1. Shall convene the council as necessary to effectively coordinate the efforts on disaster preparedness, emergency operations, and recovery and rehabilitation activities.
2. Shall call on all offices/agencies and instrumentalities of the government and the private sector for their assistance in preparing for, reacting to and recovering from the effects of disaster and emergencies.

#### **• VICE CHAIRMAN**

1. Shall perform the duties of the Chairman in the latter's absence.

#### **• DISASTER OPERATIONS OFFICER**

1. Assist in analyzing situations, formulate and implement plans necessary for disaster preparedness and disaster operation.
2. Act as an oversight committee of all disaster rescue, evacuations and rehabilitation operations in the provinces down to the barangay level.
3. Coordinate the issuance of proper warning and alert messages to concerned authorities on the existing/ impending disaster.
4. Coordinate rescue, evacuation destination, pick-up points and alternate evacuation routes to evacuations centers in coordination with the different BDRRMC's.
5. Coordinate with the proper authorities for the public use of pre-designated centers during disaster.
6. Coordinate the allocation of relief goods and medical requirements for preposition to evacuation centers and/or to affected municipalities.
7. Coordinate with other agencies the implementation of rehabilitation efforts for calamity victims.
8. Shall coordinate with PDRRMC on the effective disaster preparedness and management program.
9. Advise the Chairman on disaster-related activities.

- **INTELLIGENCE AND DISASTER ANALYSIS**

1. Evaluate information and advise the member of the municipal disaster coordinating councils of existing/impending disaster.
2. Make recommendations on how prevent disaster if possible and/or suggest precautionary measures to minimize the effects disaster.
3. Submit recommendations for the allocations of needed resources.
4. Prepare appropriate recommendations to Sangguniang Bayan for possible declaration of the existence of a state of calamity of the municipality. The recommendations shall serve as the basis for the release of 5% calamity fund.

- **PLANS AND OPERATIONS**

1. Determine courses of actions to be taken based on the recommendations of the Intelligence and Disaster Analysis Unit.
2. Recommend implementations on existing plan.
3. Determine the type of service unit to be utilized in the disaster areas.
4. Maintain and/or supervise programs and operations and determine the necessity of utilizing additional service unit.
5. Prepare Municipal Multi-hazard and Evacuation Plans.
6. Prepare appropriate reports upon the terminations of disaster operations.

- **RESOURCES**

1. In charge of the procurement and provision of necessary relief goods/supplies in support to disaster related operations.
2. Coordinate with other relief agencies and NGO's concerned for possible augmentation of needed relief supplies (Food and Non-food Items) for disaster relief operations.
3. Maintain resources data bank.

- **COMMUNICATION AND WARNING**

1. Provide timely and accurate warning information to the public.
2. Provide access and availability of communication facilities to all concerned.
3. Coordinate with higher authority on the existing and/or impending disaster threat in the province.

- **TRANSPORTATION AND EVACUATIONS**

1. Provide transportation facilities and other equipment for use during rescue, relief and evacuation operation.
2. Ensure availability of all needed transport facilities in coordination with private bus company and private sector.
3. Taps locally available transportation facilities for operation.
4. Shall be responsible for the dispatch, movement and maintenance of vehicle in affected areas.
5. Assist in the conduct of search, rescue, relief, recovery, rehabilitation and evacuation operations.
6. Prepare/implement rerouting schemes for rescue, evacuation and relief operations.

- **RESCUE AND RECOVERY**

1. Conduct rescue and recovery operations to the disaster stricken areas in coordination with MDOC.
2. Conduct evacuation of disaster victims and bring them to pre-designated evacuation centers and safer and/or higher grounds.
3. Assemble pick-up points and staging area.
4. Alert transportation unit and other equipment for deployment.
5. Assist in the organization and training of Barangay Response and Rescue Teams.

- **HEALTH**

1. Preposition/Stockpile of medicines/medical supplies at the Municipal Health Office.
2. Alert government and private hospitals and medical practitioners for possible assistance in respective localities.
3. Establish medical clinics in the evacuations centers.
4. Maintain health and sanitation in the affected areas and evacuation centers.
5. Institute preventive and curative measures to check and control the spread of diseases.
6. Provide transport and pre-hospital management of trauma victims during disaster.
7. Coordinate and supervise all government/non-government entities providing health services and various evacuations centers.

- **PUBLIC SAFETY AND ORDER**

1. Provide security in the disaster stricken areas in the evacuation centers.
2. Provide traffic assistance to motorist during disaster and/or emergencies.
3. Assist in the monitoring and reporting of disaster events.
4. Assist in the dissemination of warning to the community on the implementing and/or existing situation.

- **RELIEF AND REHABILITATION**

1. Prepare list of disaster victims for the use of the operating teams during rehabilitations phase in coordination with DSWD.
2. Undertake emergency relief assistance to victims/evacuees.
3. Provide first aid assistance to victims.
4. Assist in the arrangement and supervision of construction of bunkhouse/evacuation centers to appropriate government agencies.
5. Designate primary and alternate evacuation centers in coordination with other NGO's.
6. Preposition/stockpiles of relief goods in the establish evacuation centers.
7. Maintain records of victims, relief goods received and distributed in coordination with NGO's

- **PUBLIC INFORMATION**

1. Assist in the dissemination of warning information.
2. Coordinate with the mass media in educating the public on disaster preparedness and precautionary measures.
3. Prepare press release on disaster situation for widest dissemination to the public.

**V. OPERATION PROCEDURES**

- A. Population at risk will be evacuated in accordance to procedures established by the MDRRMC.
- B. Priorities shall be determined prior to rescue and evacuations efforts.
- C. Rescue and evacuations shall be done as a necessity and as a major responsibility of the MDRRMC.
- D. The Municipal mayor as Chairman shall call the evacuation order.
- E. The Chief of Police calls the shots for evacuation in the absence of the Chairman.

- F. The Barangay Captain/Chairman of the BDRRMC acts as the overseer for his Barangay.
- G. Selected members of affected families shall remain in the affected areas as long as safety provides to assist and secure the community.

## **VI. PHASE OF OPERATION**

### **1. Phase I (Preparatory Stage)**

- 1.1 Re-organization/Re-activation of MDRRMC.
- 1.2 Information dissemination from MDRRMC.to BDRRMC.
- 1.3 Undertake all necessary preparations as required in the plan.
- 1.4 Organization and provision of specialized training on disaster response team (RESCUE 1112).
- 1.5 Massive information drive and education campaign.
- 1.6 Improvement of communication and warning system.
- 1.7 Conduct of evacuation drills and exercise.
- 1.8 Updating of contingency and evacuation plan.
- 1.9 Development of an effective disaster response at the lower level.
- 1.10 Improvement of the monitoring and feedback mechanism.

### **2. Phase II (Disaster period)**

- 2.1 Full activation of the MDRRMC and its disaster Operation Centers.
- 2.2 Provision of emergency services such as relief, rescue and evacuation, transportation, emergency and general medical care, and communication warning.
- 2.3 Provision of timely information on actual disaster incidents.
- 2.4 Conduct of situation survey and damage assessment.
- 2.5 Close monitoring and supervision on BDRRMC for possible support and assistance.
- 2.6 Submission of reports.

- 3.1 Conduct MDRRMC meeting for final evaluation of the situation.
- 3.2 Determine rehabilitation requirements for disaster victims.
- 3.3 Preparation of final report.
- 3.4 Restoration, repair and rehabilitation of damaged infrastructure and agriculture crops.
- 3.5 Conduct post disaster assessment and review the existing plan.
- 3.6 Provision of livelihood project to the affected families.

## **VII. COORDINATING INSTRUCTIONS**

- A. Implementation of any activity provided for in the plan shall be properly coordinated with all concerned.
- B. Locally available resources, both financial and material shall be fully tapped in response to the emergency.
- C. Immediate response to local disaster situation is a primary responsibility of the MDRRMC concerned.

**DISASTER/EVACUATION PLAN**  
**Municipality of San Simon**  
**Province of Pampanga**

The impending disaster that may strike in this municipality is serious and may bring damage to lives and properties of the people of San Simon, Pampanga especially those living along the Pampanga River: Brgys San Pedro, San Juan, San Jose, San Miguel, San Nicolas and Sta. Cruz. The continuous heavy downpour of rains and the water coming from Candaba and San Luis will trigger the overflow of the Pampanga River and erosion of the Old Arnedo Dike. All barangays adjacent of the Pampanga River will experience floodwaters approximately 8 to 9 ft, deep

**I. SITUATION**

The impending disaster that may strike this municipality is very serious and may bring heavy damage to the lives and properties of the people of San Simon, heavy rainfall may result to flooding of most areas causing all roads unpassable to all type of land vehicles.

**II. MISSION**

To conduct an orderly evacuation an orderly evacuation for the affected areas should heavy rainfall/flooding occur and to minimize eradicate loss of live damages on crops and infrastructure.

**III. EXECUTION**

**A. CONCEPT OF OPERATION**

This plan shall be undertaken in three (3) phases depending on the effects of flood in the area.

**1. Preparation Phase**

As soon as the Communication and Warning Group observed that there is an abnormal increase of water they shall immediately give the signal for the people to prepare for any eventuality. Available bancas/vehicles should be propositioned at designated place.

**2. Evacuation Phase**

As soon as the water reaches abnormal level, the concerned Barangay Captain will declare that there is a need to evacuation the residents, the church bell shall be made to continuously ring and the residents shall be moved at designated places.

3. **Security Phase**

When water decreases its level, members of the security team shall immediately return to their respective barangay to prevent looting.

**B. TASK**

**1. Liason Group**

- a. Coordinate with the owners of vehicles/bancas in their barangay for their use should evacuation becomes necessary;;
- b. Coordinate with the District Supervisor and staff for the use of the schools for their uses as evacuation centers; and
- c. Coordinate with the PDRRMC for current information regarding the activity relative to the present disaster/calamity that affects the areas.

**2. Communication & Warning Group**

- a. Ensure the proper implementation of the plan;
- b. Supervise the orderly conduct of the evacuation;
- c. Give the signal when the evacuation should be made;
- d. Coordinate with the concerned task units for the availability of the evacuation buses/trucks/bancas and the necessary requirements for evacuation; and
- e. Perform other duties as the MDAO may direct.

**3. Rescue and Recovery Group**

- a. Shall be responsible for the rescue of flood victims who were left at their barangay.
- b. Shall be the one that will give first aid to the unconscious victims;
- c. Perform other duties that may direct by the barangay Captain/MDAO.

**4. Transportation Evacuation Group**

- a. Organize all available bancas/vehicles in the Barangay to be used during the evacuation phase;
- b. Ensure that the residents of said barangay are transferred/moved at their respective assembly area when evacuation is declared;
- c. Assist the evacuees in settling at the designated evacuation areas in an organize manner;
- d. Perform other duties as the barangay Captain/MDAO may direct.

**5. Public Safety and Order**

- a. Shall be the one to move last in case of mass evacuation;
- b. Ensure that all persons are evacuated before pulling out;

- c. Assist in securing evacuees at designated evacuation areas;
- d. Responsible for the smooth flow of traffic;
- e. Responsible for the installation of temporary traffic signs and signal;
- f. Responsible for re-routing of traffic if needed;
- g. Responsible for the installation of traffic warning devices;
- h. Perform other duties as the MDAO may direct.

#### **IV. OPERATION REQUIREMENTS:**

##### **A. KEY PERSONS/UNITS INVOLVED**

- 1. Municipal Mayor
- 2. Chief of Police
- 3. Intel and Disaster Analysis Unit
- 4. Plans and Operation Unit

# DISASTER PREPAREDNESS AND MANAGEMENT PLAN

The municipal Disaster Coordinating Council has set the following guidelines on disaster preparedness and management plan for implementation at the municipality with all council members performing their mandated duties and responsibilities.

The disaster preparedness and management plan will be in accordance with three (3) phase of Disaster Management:

1. Phase I - Pre-Disaster Period
2. Phase II - Disaster Period
3. Phase II - Post Disaster Period

## 1. PHASE I-PRE-DISASTER PERIOD

1. Capability enhancement of disaster Coordinating Council especially the flood prone areas.
2. Intensification in the conduct of Disaster Management Training Seminars from the Municipality down to Barangay Level.
3. Organization and provision of specialized training on disaster response team.
4. Massive information drive and education campaign.
5. Improvement of communication and warning system.
6. Conduct of evacuation drills and exercises.
7. Updating of contingency and evacuation plan.
8. Development of an effective disaster response at the lower level.
9. Improvement of the monitoring and feedback mechanism.

### *TASKING:*

1. The Disaster Coordinating Council must have a vivid foresight and close coordination among its member on any eventuality that may occur in the flood prone areas.
2. The conduct of Disaster Management Seminars and other trainings relative to disaster management must be intensified in order to upgrade public awareness and understanding to prevent loss of live and minimize damage to properties.
3. To organize a special training course to disaster response team for immediate mobilization.
4. To conduct massive info drive and education campaign at the municipality down to the barangay level for public awareness program on the importance of Disaster Preparedness.
5. To improve communication and warning system for use in the disaster monitoring activities and to ensure effective and efficient operation.
6. To conduct of vulnerability and hazard analysis is a must, in order to identify at the
7. To conduct periodic communication and warning/evacuation drills and exercises in order to avoid public confusion during actual implementation of the plan.
8. To develop an effective response group at the lower level that will respond immediately at the first impact of disaster.
9. To improve the monitoring and response system for smooth disaster operation for positive and maximum results.

2. PHASE II – DISASTER PERIOD

1. Full activation of the MDRRMC and its Disaster Operation Center.
2. Provision of emergency services such as relief, rescue and evacuation, transportation and engineering, emergency and general medical care and communication and warning.
3. Conduct damage assessment.
4. Submission of Reports.

*TASKING:*

1. The activation and manning of MDOC on a 24hour round the clock during disaster period and provisions of emergency services such as relief, evacuation, and medical care to the affected areas.
2. To conduct damage assessment during disaster prior to the submission of report to the Chairman PDRRMC>

3. PHASE III – POST DISASTER PERIOD

1. Determine rehabilitation requirements of disaster victims.
2. Restoration, repair and rehabilitation of damage infrastructures and agricultural crops.
3. Conduct post disaster assessment/critiquing and to review the existing plan.

*TASKING:*

To determine rehabilitation requirements areas and victims further conduct assessment after the disaster operation.

**COORDINATING INSTRUCTIONS:**

1. Provincial government agencies exist to support the municipality in times of emergency according to their level of assignment.
2. Every member shall immediately report the Municipal disaster Operations Center (MDOC) for a last minute instruction from the Chairman.

**VOLUNTEERS:**

1. Non-Government Organizations (NGO's)
2. Youth Clubs and Organizations
3. PMT's

*FUNCTIONS:*

1. Conduct rescue and recovery operations to affected residents living along threatened and high-risk areas.
2. Initiate evacuations of those affected victims and bring them to designated safe grounds.
3. Assemble and organize affected residents in the designated evacuation pick-up points.
4. Alert transports, fire-fighting units and other equipment for development.
5. Assist in the organization and training of barangay Response and Rescue teams.
6. Preposition/stockpile medicines/medical supplies at the Operation Centers.

7. Alert government and private hospitals and medical practitioners for possible medical assistance in respective localities.
8. Establish emergency medical clinic at the Operation center.
9. Provide transport and pre-hospital management of trauma victims during disaster.

**PLANS AND PROGRAM OF THE MDCC**  
**RE: LA NIÑA PHENOMENON**

- MDRRMC will enter into a Memorandum of Agreement (MOA) on credit sales to assist the municipality during emergencies and calamities.
- Monitoring of prices and enforcement of rules and regulations.
- Public information Re: availability of rice. This will ensure that the public is aware of the availability of government rice.
- Reactivation of the Municipal Disaster Operations Center.
- Ensure availability and readiness of logistic to include service vehicles, emergency lights, and communication facilities/equipments.
- Putting up/fielding of rolling stores especially in affected areas.
- Distribution of potable drinking water.
- Stand by rescuers and paramedic teams for possible rescue and evacuation operation.
- Recruitment and organization of volunteers groups to compose the Disaster Response Group.
- Inventory of available materials and equipment that can be utilized during the actual operation.
- Conduct Disaster Management Training/Seminars.
- Conduct rescue and evacuation operations.
- To affect attitudinal and procedural changes in the understanding, accepting and implication of programs/project related to “La Niña” disaster preparedness.
- To conduct research and development related to “La Niña” disaster phenomenon.

## **PAGASA STORM SIGNAL WARNING**

- A. TYPHOONS** – PAGASA advices the public on the latest weather bulletins and announcements through the radio and televisions.
- i. PUBLIC STORM SIGNAL NO. 1** – means that the winds of 30-60 kilometers per hour may be expected within 36 hours. Alert is on but business may be continued as usual except when flood occurs.
  - ii. PUBLIC STORM SIGNAL NO. 2** – means that the winds greater than 60-100 kilometers per hour may be expected within 24 hours. People are advice to take precautionary measures.
  - iii. PUBLIC STORM SIGNAL NO. 3** – means that the center of the tropical cyclone is expected to pass very close or over areas where signal No. 3 is raised. Winds greater than 100 Kph to 185 Kph would be expected over these areas within the next 18 hours. People are advice to seek their shelter in strong building and stay indoors.
  - iv. PUBLIC STORM SIGNAL NO 4** – means winds greater than 185 Kph may be expected within 12 hours. People should stay indoors in strong building.

# **Municipal Disaster Risk Reduction Management Plan**

## ***CY: 2011-2012***

1. Distribution of leaflet/flyers per household and MDRRMC.  
Display of posters every barangay hall on typhoon and flood signal and warning.
2. Installation of marker for forecasting flood water level system.
3. Trimming of trees to prevent from falling to high tension wire and houses.
4. Clean and desilt, all silted creeks within this municipality.
5. MDRRMC/BDRRMC/Rescue team stay foot to their respective opn center ready on call to any emergencies demanding immediate response.
6. Upgrade/procurement and additional rescue equipment.
7. Continuous training and seminar/orientation on disaster preparedness with involvement all agency concern NGO's/CSO.
8. Stock file of relief goods and medicine of the opn center.
9. Rehabilitation of damaged road/infrastructures caused by typhoon Pedring.
10. Update and review all pre designated evacuation center.
